

RESEARCH OPPORTUNITY

PARTICIPANTS

WANTED

Are you an adult (18+ years old) with Down Syndrome/Trisomy 21? Or, do you know an adult with Down Syndrome? We are looking for people to take an online survey to answer questions about their experiences with healthcare, and how much responsibility or autonomy they have in these settings.

Participants will:

- Complete a preliminary survey to confirm eligibility
- Sign a consent form
 - Participants may also sign an assent form and have a surrogate guardian sign the legal consent
- Complete the main survey

Who can participate?

You can participate if you:

- Are over the age of 18 years old
- Speak or read english
- Have access to wifi and a computer, tablet, or phone capable of taking a simple survey
- Have a diagnosis of Down Syndrome/Trisomy 21
- Have had at least one health related appointment in the last 6 months

All study activities can be completed on your own schedule and in a comfortable environment. Participants may have a caregiver assist them with the survey. All survey responses will be deidentified so none of your responses can be tied to you.

Questions? Want more information?
